

New Hell Hole News - #39

September 3rd, 2013

To all my friends and pen pals,

On 8./31, I collapsed in the floor in pain so bad I passed out from it after it blinded me. I had no fever, B.P. normal. The “nurse” said nothing was wrong with me, that I was faking. I refused to go back to my cell and got rank, took me to Huntsville Memorial Hospital E.R., cat scan. The result: acute pancreatitis, bad case. Pumped me full of morphine and raced me to John Sealy Hospital in Galveston at 100 mph.

I stayed in hospital for three weeks, almost died twice. Came back to the unit 08.23 and was denied all meds, relapsed, almost died again. My B.P. was 85/53 and they’d called in my free-world priest to give me the last rites and extreme unction. No, I’m not kidding. When I left here I weighed 218, I now weigh 174, lost 44 – 47 lbs in 28 days, puking up my guts everyday and it smelled dead. Couldn’t eat the whole month.

Through a miracle I survived. The miracle did not come from TDCJ/UTMB. I’m starting to eat solid food again and not puking. This ailment usually kills. My priest’s niece died of it. The cause is unknown. You can look at the facts here: <http://www.medicinenet.com/pancreatitis/article.htm> read it and you’ll understand.

I’m still real shaky and not up to writing y’all my usual epic letters, so y’all write me, ok. Ha/ha. My daughter, I love you! Laure Kate, got your JPay and card, it kept me going in going in darkness.

I’m gone.

Love and more to you all,

Hank
